

**Open Ph.D. position** in the Madi Lab ([www.asafmadilab.com](http://www.asafmadilab.com)). The lab is studying molecular signaling that occurs following immune cell interactions or immunotherapies within the **tumor microenvironment**. We are utilizing **single cell transcriptomic technologies** together with *in vitro* and *in vivo* experimental models hand in hand with **advanced computational methods**.

Please e-mail [asafmadi@tauex.tau.ac.il](mailto:asafmadi@tauex.tau.ac.il)

Best,  
Asaf
